Platform and Resolutions of the Silver Party of Nevada.

The Silver Party of Nevada in convention assembled at Carson City, on the 4th day of September, 1894, declare that platforms shall assert cardinal principles of political faith concerning questions of political interest and present moment without equivocation or evasion. We hold that history has demonstrated that these principles are right and equitable and their observance necessary to secure the welfare and individual happiness for which this Government was established.

SILVER.

We deny the right of authority of the Government of the United States to pass any law restricting or abridging the privilege of a citizen to the free coinage of silver into standard money at the legal ratio of 16 to 1, independent of any other nation, and we demand the repeal of all laws denying or abridging that right.

We demand Government ownership of telegraph lines and Government subsidized railroads.

LABOR.

We demand that no law shall be enacted restraining or abridging the developments of our natural resources and we guarantee to the people freedom of pursuit and the inalienable right to enjoy the full value of all property that their labor produced. We hold it as one of the rights of human existence and material progress and enterprise, that capital and labor shall go hand in hand in the general advancement, happiness and good of this great country. Therefore we claim that capital and labor should stand on an equal footing before the law, and that the laborer should always receive a fair compensation for a full day's work. That both capital and labor should be referred to the electors of this state that the amendment referred to which provides among other things that our school monies may be invested in any other bonds than National and Nevada State be voted against and defeated, and our millions of school money saved from loss by an unsafe investment.

We look to the People's party of America as the only national party in existence today honestly in favor of any of the above principles and reforms, and we pledge the hearty support and co-operation of the people of Nevada in its effort to maintain and carry out the same and the nominee of this convention for Congressman, in the event that he shall have a vote for the President of the United States as a member of the House of Representatives, is hereby pledged to vote for the nominee of the People's party unless otherwise instructed by the Silver Party of this State.

OBEYANCE TO THE LAWS REQUIRED BY ALL.

We denounce the criminal suspension of the laws of Congress by the President, such as the purchasing clause of the Sherman Bullion Purchasing Act; the Geary Act, providing for the deportation of unregistered Chinese, when its constitutionality has been affirmed by the Supreme Court, and his neglect and refusal to enforce the Anti Trust and Interstate Commerce Acts against wealthy offenders.

ELECTIVE FRANCHISE.

denied by the demonetization of silver, the great injury of every laborer, user and tradesman in the nation.

The volume of money in circulation should be steadily increased and always be fully adequate for the requirements of business. The all money should be a legal tender for debts both public and private. That no money should exist except such as issued directly by the National Government and nothing should be money but gold, silver and Government paper.

We favor the redemption of Government bonds and the prohibition of any further issue thereof in time of peace.

We demand the abolition of National banks.

We demand the collection of the indebtedness of the Pacific rail way companies to the United States at maturity without any extension of time or change of terms and conditions.

A public office is a public trust. No person or party should be trusted who has once violated the trust. Every citizen should contribute to the support of the Government in proportion to his means and in accordance with the necessity of good government, but no Government should augment his burden or enlarge its necessities by unnecessary needless interest bearing debts making us less expenditures, or by failing to promptly collect what is justly due, whether it be a loan, a tax or a tariff.

No grant should be made of public property for any other than a public purpose, and it is the duty of the Government to secure to the public the enjoyment of the benefit which was the consideration of the grant, or declare it forfeited.

We demand Government ownership of telegraph lines and Government subsidized railroads.

EDUCATION.

We are justly proud of the public schools and State University of Nevada; we believe they should be fostered and protected above all other institutions, as upon them rests the perpetuity of the Government and the securities of our liberties. We are in favor of such legislation as will increase the efficiency and raise the standard of the public schools and State University until a thorough education, with out expense, is placed within the reach of every child in Nevada.

We demand that no law shall be enacted restraining or abridging the developments of our natural resources and we guarantee to the people freedom of pursuit and the inalienable right to enjoy the full value of all property that their labor produced. We hold it as one of the rights of human existence and material progress and enterprise, that capital and labor shall go hand in hand in the general advancement, happiness and good of this great country. Therefore we claim that capital and labor should stand on an equal footing before the law, and that the laborer should always receive a fair compensation for a full day's work. That both capital and labor should be referred to the electors of this state that the amendment referred to which provides among other things that our school monies may be invested in any other bonds than National and Nevada State be voted against and defeated, and our millions of school money saved from loss by an unsafe investment.

We look to the People's party of America as the only national party in existence today honestly in favor of any of the above principles and reforms, and we pledge the hearty support and co-operation of the people of Nevada in its effort to maintain and carry out the same and the nominee of this convention for Congressman, in the event that he shall have a vote for the President of the United States as a member of the House of Representatives, is hereby pledged to vote for the nominee of the People's party unless otherwise instructed by the Silver Party of this State.

We demand the enforcement of the Interstate Commerce Act everywhere.

We are in favor of an amendment to the Constitution of the United States providing for the election of United States Senators by a direct vote of the people of their respective States.

Oppression of foreign immigration, and demand the exclusion of paupers and contract labor.

The able and efficient services of Senator Stewart and Jones and Congressman Newlands in the Congress of the United States in behalf of all interests that promote the welfare of our people, are

worthy of the endorsement of patriotic citizens of our State.

Resolved, That as large audiences are to be held in the

states and territories of the

United States and the continental states of the Old and Mississippi Rivers equitably and justice demands similar appropriations for public uses in the arid region, and that we call on the General Government for a large sum of money to be used in the reclamation of arid lands can be conducted by the State or by private enterprises.

LOTTERIES.

The establishment of a lottery in this State would be a blot upon the people and would result in financial and moral degradation.

Therefore, in the language of our constitution, "No lottery ticket shall be authorized by this State, nor shall the sale of lottery tickets be allowed." We condemn in equal terms all legislation of this State which has attempted to legislate or authorize lotteries or the sale of lottery tickets.

We are unalterably opposed to the ratification of the proposed amendment to Section I, Article II of the constitution of our State wherein it ignores all questions of modesty to persons who after arriving at the age of eighteen years bear arms against the United States Government, for the reason that the same is un-American in spirit and contrary to the clemency already extended to such persons for over thirty years, and we therefore recommend to the voters of this State to vote "No" on this proposition.

SCHOOLS.

We are justly proud of the public schools and State University of Nevada; we believe they should be fostered and protected above all other institutions, as upon them rests the perpetuity of the Government and the securities of our liberties. We are in favor of such legislation as will increase the efficiency and raise the standard of the public schools and State University until a thorough education, with out expense, is placed within the reach of every child in Nevada.

Each department of the County Government has been honestly and economically managed, with an actual saving to the taxpayers of nearly \$10,000 per annum for the past two years.

Under these circumstances the Silver Party of Ormsby feel justified in again demanding the support of the voters and taxpayers of the county at the forthcoming election.

Resolved, That this Party unqualifiedly endorses the action of Hon. John P. Jones in withdrawing from a party who, while professing to be the friend of Silver in its State platform, has persistently caused his Representative in Congress to bow to the mandates of Wall Street.

This Convention denounces as dishonest, insulting and inconsistent the demand for his resignation by the Republican State Central Committee of Nevada, whereby the illegal and impudent demands for the withdrawal from the Senate of the United

both continents as one of the leading silver exponents of the World, have torn aside the miserable mask of monometalism that has so long covered the face of the Republican party of Nevada.

Resolved, That should a vacancy occur in the office of the U.S. Senator from this State which would be necessary to fill at the next meeting of the Legislature,

That we endorse the able and conscientious efforts of Senator Stewart and Congressman Newlands.

SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nervous force; that indigestion, dyspepsia, neuralgia, pain in stomach, etc., arise from the derangement of the nerve centers supplying those organs with nervous fluid or force. This is believed to be the cause of many diseases of the heart and lungs. The nervous system is like a telegraph system, as will be seen by the accompanying

Diagram showing the nervous system with the brain at the top, connected to the spinal cord, which then branches out to various parts of the body. The diagram illustrates how the nervous system carries messages between the brain and the rest of the body.
